DOMESTIC CARRIER MENDER -- It is one of the marvel of the use that such vast sums are expended in gettin up apparently trilling articles; and another marve that these are of so much utility. Large fortunes have been made out of matches, which are sold at the rate of one or two hundred for a penny. Somewhat similar we are told, is to be the success of a recent invention for repairing all kinds of furniture,- "Spalding's Prepared Glue." It is prepared chemically, will keep in all climates, may be applied on the instant, and if all that is said of it is true, must become highly useful in repairing broken furniture, dilapidated books, and in

# NEMESIS.

By the Author of Hidden Path, Alone and Moss Side. The scene of the story of Nemenic is laid in the South. The time, the beginning of the present century. The customs and events of those days are traced with fidelity and spirit, yet so skillfully interwoven with the narrative, that the reader is not wearied by statistics or dry historical details. The homes of fifty years ago seemed as familiar to him as those he visited but vesterday, and their inmates differ little from the men and women with whom he associates daily. The pictures of humble life are graphic and refreshing. In no other work from the authors pen can there be found greater variety of incident, more artistic deleneation of character, more cornestness of thought and vigor of discription, and certainly no other contains a plot to striking in conception and so ally managed. The reader cannot but remark how irresistably yet

naturally he is borne along by the tide of events There is no need after he is once in the current to expinin the eminous tittle that frowns at the top of the ture. Refore the Nemen's is unvailed the reader feels her subtle influence, understanding by intuition that there are hidden springs and secret wires under the her vengence and the pertinent motto of the authorers | Market Streets last night. fully proves that retribution though somtimes slow is

MEETING OF COMMON COUNCIL. The Common Council met yesterday after-

The special committee appointed to inquire nto the practicability and cost of widening Union street between Cherry and Summer, reported the matter impracticable for the present, and begged to be discharged. The Revenue Collector reported having

collected, since last report, for corporation purposes, \$15,685,73; for schools, \$2,509.18. The report of Water Tax Collector shows collections since last report, of \$4,366.25. Mr. Cheatham offered a bill to extend to Summer street the large sewer extending from the river up Church to Cherry street.

Laid on the table. The Committee on Water Works reported the new Reservoir completed, the near completion of a new basin, with other improvements, at a cost so far of \$8,240 41. Mr. Craighead's bill to define the eligibility

The resolution from the Board of Alder men granting the use of the City Hall at the upper end of the Market House to the German Yagers was concurred in.

Mr. Craighead introduced a bill to construe sewer on Summer street from Union to Cedar streets. Passed under suspension of the rule. The Council adjourned to meet at 7 o'clock Saturday evening next.

23 Mr. Douglas is to be in Louisville to morrow, where he is to meet with a grand r ception and make a speech. We presume all his political friends here will go to hear him. They ought to make an effort to capture him and bring him to Nashville. The number of people he would draw to Watkins' Grove would make the crowd at a hundred

and forty horse circus feel quite small. COME OUT!-The Presidential Electors for the State at Large are to speak here to-day A great many people around town would like to hear them, but comparatively few will care to climb to the third story of the Court House for the purpose. People don't like to go to the moon to hear even themselves speak. That third story of the Court House is a humbug-a nulsance when candidates will speak in it that ought to be abated at once. Give it up to the Sons and Daughters of Maita, the Knights and Days of the Golden Circle, and other war-like people who had as soon meet in the attic as the cellar, and let political gatherings assemble down on the ground, where all sorts of stamping can be carried on without dislodging an acre or so of plastering and spoiling a Court House that has n't got any attractions to spare.

The Committee appointed by the State Bucan of the Seventh Annual State Fair of Tennessee to examine, and make award for the best Family Sewing Machine, find on exhibition the following machines in competi tion : the I. M. Singer, Wheeler & Wilson, A B. Howe, and the Grover & Baker. The first three named, although differing in construction and capacity, still so far as the stitch is oncerned, all arrive at the same point, making what is called and known as the shuttle stitch, each using a shuttle or shattle and bobbin, upon which all the lower thread, or thread used underneath is required to be respooled. The Shuttle Machine may be used upon some classes of family sewing with a degree of satisfaction, but we conceive from their construction, operation and stitch, their principal adaptation is to the purposes of manufacture. The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. In all cases of female debility (fluor albus, chlorosa, etc.), its effects are delightfully renovating. No remedy has ever been discovered, in the whole history of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetits, com-plete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use.
